# ABOUT US

DUNDAS ESTATES & DEVELOPMENT Co. Ltd.

## About Dundas Estates

Dundas is an award-winning, privately-owned house-building company based in Livingston. We build and sell houses in the 'volume' housing market against larger, mainly national firms. Dundas is, however, a company more in tune with local needs and we adopt **a more human approach to housebuilding**. Our success is based on the ability to build homes that offer more than our competitors, carefully controlled product delivery and the ability to adapt our product to meet site specific planning policy requirements.

Dundas Estates is the property development arm of James Walker (Leith) Limited, a highly respected name in the industry with a history stretching back almost 150 years. With the strong financial backing provided by our Parent Company, Dundas has established **a track record of delivering award-winning developments throughout the central belt**. Accolades including winner of the 'Best Development' awarded by the industry body Homes for Scotland in 2017 (Calderwood Village, Coatbridge) and again in 2019 (Kings Court, Dunbar) and 'Apartment of the Year', Herald Property Awards 2024 (for our spectacular 'Wire Works' development in Musselburgh), are all testament to Dundas's approach to development, quality of build and attention to detail.
